

Dear fellow laborer in communicating God's love,

It is a privilege to join arms with you as we together share the good news of Jesus with a hungry world. It is especially an honor to present to you a fully restored *JESUS* film this Easter season to make sharing that good news even easier.

In celebration of The JESUS Film Project's 35th anniversary, we have carefully restored the movie that has touched billions of lives around the world. You can read more about that process through the enclosed news release, but let me assure you, it was a labor of love! The Dolby 5.1 soundtrack and score with HD picture all live up to the standards of today's media sophisticated audience. Individuals who have seen the original *JESUS* film have marveled at how the new picture, sound and music of this 35th anniversary film make watching it a whole new experience.

Our hope is that audiences in the United States will experience Jesus through this powerful, biblically faithful, docudrama in the same way that billions have across the world. To this end, this Easter season, and throughout the year, the 35th anniversary edition, re-titled *The JESUS Film*, will be available for the first time in retail stores everywhere, and also through select community events at local theaters via partnership with TUGG.

You can play a crucial role in spreading the word about this new release. Inside this packet you can learn about how *The JESUS Film* can assist your community outreach this Easter through:

- Hosting or attending a community theater event through TUGG
- Connecting and sharing via social platforms
 -  JesusFilmHD
 -  @JesusFilmHD
- Purchasing your own copies of our newly restored movie –to share with neighbors and friends

For more information, visit <http://www.JesusFilmHD.com>, where you can see a trailer for *The JESUS Film* and sign up to receive updates on what God is doing around the world through The JESUS Film Project.

Please join with us as we continue the charge of bringing the good news to all peoples and every person!

Because Seeing Is Believing,
